

CARBONATE FORUM 2026

Tuesday 12th and Wednesday 13th May 2026

Free and online

Under the theme: "Local Rocks for Local People"

We are looking for local events: (workshops, field excursions, lab visits)

After the success of the one-day fieldtrip organised in 2022 (see pictures above) we are planning to run again a series of related in-person events (one-day fieldtrips, core workshops, laboratory visits).

These events need to take place prior to the Forum and aim to connect local carbonate communities with the global carbonate community and build networks.

Each event will briefly report back during the Forum with the aim of prompting virtual discussion of the identified questions to engage global people in the local rocks. If you are interested in running one of these events then please visit the conference webpage.

Thanks to the IAS and SEPM sponsoring these events, a participation (amount to be decided later) will be available to help cover any costs linked to the organisation only (travel costs, accommodation, guide-book printing, car rental, etc.).

Activities submission:

Deadline: 15th February 2026

Link: <https://forms.gle/ubHpZmckXpaUdzoC7>

For more information go to:

Conditions

- Having an umbrella organisation (company, university or else) to cover you and the participants during the event (proof to be submitted on the google form).
- Organise the events before the conference, before 12th of May 2026.
- Being available to present a summary of the events during the conference on 12th or 13th of May 2026.
