

CARBONATE FORUM 2026

GLOBAL ACTIVITY: LOCAL ROCKS FOR GLOBAL PEOPLE WORKSHOP

ANALYTICAL TECHNIQUES FOR STUDYING DOLOMITES

SPEAKERS

Dr. Muhammad Awais (PhD, Italy)

Dr. Waqar Ahmad (PhD, Canada)

Lecturers, Department of Geology, University of Swabi, Khyber Pakhtunkhwa, Pakistan

Date: Wednesday 06 May 2026

Time (PST): 09:30 am - 03:30 pm

Venue: Dept. of Geology, University of Swabi, Khyber Pakhtunkhwa, Pakistan

Workshop agenda

- Techniques (petrography, SEM-EDS, XRD, isotopes geochemistry, etc) used to study dolomites.
- Case studies of dolomites and dolomitization from Pakistan.

Participants & target audience

Min./Max. participants: 15/30 (preference to BS, MS and PhD students, and Early Career Researchers (ECRs) working on dolomites and or other sedimentary rocks; otherwise, first-come-first-served basis).

Please fill out the **google form** for registration
